The list below provides names of generic prescription drugs from the same therapeutic class as the Merck product, in accordance with Colorado law. Note that the drugs listed are not necessarily the generic form of the Merck product. Rather, these drugs could be the generic form of a non-Merck drug from the same therapeutic class. Depending on the number of generic prescription drugs in the therapeutic class, this list may not be inclusive of all.

This list does not imply that the products on this chart are interchangeable or have the same efficacy or safety. Please refer to each product’s FDA-approved label and indication for further information.
